Election Questions For People In Toronto!

Hi, my name is Vijay Sarma, my number is 647-857-5755, and as a lifelong resident who knows and loves this city, I want to be your Mayor of Toronto. I have a few questions for voters. After months of campaigning, why do most of us know the names of candidates but not what they stand for? Did they tell us? Why focus more on federal elections, with MP's controlled by political parties, than municipal elections, when local candidates are only responsible to the voters? With rising taxes, toxins, prices, stress, cancer, crime and more to deal with, what can we just ask for and get this time?

We all know we're being harmed by government and corporate corruption, so should we give ANY candidate a great job that pays $100,000 a year if they won't help us deal with it? Isn't that their job? Can we help our City employees work better for us? Should men protect women, children and the elderly during tough times like we have forever? Can we talk about "the weather" and real stuff too? If it's stupid, can we laugh at it? If it's smart, can we use it? Can Toronto think positive enough to take care of this? Yes! ☺
